

# Feral and Stray Cat Community Town Hall

The NS SPCA will facilitate a Town Hall meeting between interested groups and members of communities who wish to be part of the Feral and Stray Cat solution. We invite all concerned residents, City/Municipal staff, and anyone who wishes to be a part of the solution to attend.

In addition to its core mandate of prevention of cruelty to animals, the NS SPCA also works hard to take in abandoned and unwanted animals whenever space and resources allow, accepting over 5,000 unwanted cats per year provincially. While the function of animal control falls under City/Municipal responsibility, the NS SPCA cares about the welfare of all animals and wants to be part of the solution. This is a community issue and therefore must be resolved by our community as a whole.

There will be speakers on successful local programs such a Trap-Neuter-Release program in the Halifax dockyard and a low-cost spay/neuter program in Halifax including discussion on how such programs are implemented, how they work, and how you can do it in your own community!

**Date:** *Saturday, May 30<sup>th</sup>*

**Time:** *8:30am – 12:00pm*

**Location:** *Saint Mary's University, Sobey Building, Room 265, 903 Robie Street*

RSVP appreciated to [animals@spcans.ca](mailto:animals@spcans.ca)
